

# Jumanne Mtambalike

Innovator, Author, Investor,  
Entrepreneur, Tech Enthusiast and  
Futurist.

Africa is the youngest continent in the world with the median age of 18 years old. Out of top 10 fastest growing economies in the world 6 are in Africa. The 15 fastest-growing cities in the world are all in Africa, and are set to double in size by 2035. I look at technology, innovation, and entrepreneurship as tools to leapfrog Africa's socio-economic growth.

Jumanne Mtambalike

# My Investment Thesis

Jumanne Mtambalike, an innovator, entrepreneur, and technology enthusiast, aims to catalyze positive change in Africa's future. With a keen focus on technology-driven solutions, Jumanne seeks to invest in startups committed to addressing pressing challenges on the continent. His investment thesis revolves around supporting ventures that leverage innovative technologies to drive economic growth, improve access to essential services, and foster sustainable development across Africa.

# 100+ Startups

Over the past decade, Jumanne Mtambalike has emerged as a dynamic and influential figure in the African startup ecosystem. With an impressive track record of working alongside over a thousand early-stage ventures across the continent, his impact as an angel investor is undeniable. Jumanne's journey has been characterized by providing capital and actively participating in the growth and development of these startups. As a serial entrepreneur, he has co-founded multiple companies, giving him firsthand experience of startups' challenges and opportunities.

# Jumanne Areas of Interest

## Innovations and Technology Disrupting Traditional Systems

Jumanne actively seeks startups that challenge and disrupt traditional systems. He is particularly interested in ventures that harness technology to revolutionize energy, finance, agriculture, healthcare, and logistics industries.

## Innovations Transforming Lives of Grassroots Communities

Jumanne is passionate about driving positive change at the grassroots level. He is eager to support startups that focus on creating innovative solutions tailored to the unique needs and challenges of African local communities.

## Innovations and Technology Shapping Africa's Future

Jumanne is interested in startups that align with the continent's growth trajectory and can contribute to its long-term prosperity. This may involve investments in companies working on emerging and futuristic technologies.

## Innovations and Technology Emerging From Scientific Works

Jumanne is interested in startups that emerge from scientific research addressing challenges across multiple sectors. Jumanne invests in attaining Intellectual Property and commercialization of the research works.

# My Investment Thesis

Jumanne is particularly interested in startups that deeply understand local nuances, cultural diversity, and scalable solutions. He aims to empower African entrepreneurs through strategic investments and mentorship to realize their vision and contribute to the continent's transformation. Jumanne's unwavering optimism for Africa's potential drives his commitment to nurturing and backing innovative ventures that can bring about meaningful change and prosperity.

# What do I Look For?

## Idea

Great ideas with the potential to scale and create exponential impact.

## Team

Passionate committed founders eager to learn, build and scale their products.

## Products

Impressive products addressing real needs, meeting customers' expectations.

## Execution

A clear execution strategy and pathway to growth and exit.

## Learning

Something exciting that will challenge me and founders to learn new things.

# What Will I Bring?

## **Networks**

Strategic partners, industry experts and growth stage investors.

## **Experience**

Years of experience working with startup companies in developing markets.

## **Funding**

Pre-seed investment between 5K-25K for building MVP and initial traction.

## **Credibility**

My personal brand and reputation will unlock door of opportunities.

## **Systems**

We will work together to introduce systems and structures that encourages growth.
